

Blend

100% Merlot

Merlot is the most common grape variety in the Bordeaux region, it is the first red grape variety to be harvested in the area. On fresh soil, it will be able to express its full potential, bringing fruity aromas such as red plum, raspberry or cherry.

Tasting notes of Roger C. Bohmrich—Master of Wine

Transparent red color. Ideally clean aroma exhibiting strawberry and red currant fruit, forthcoming and subtly nuanced. In the mouth, this young rose is clean, soft and delicately flavored. Medium-bodied, the wine is well-balanced, with lingering notes of red berries. Makes an excellent case for the roses of Bordeaux, which are undiscovered by American wine drinkers.

Food Pairing

This rose will go well with snacks, light meat, delicatessen foods, white or red meat and lightly flavored cheese.

Ageing

Two years
